

ABDUL MANAN

AI Engineer

+923036722500 | abdulmannan.developer@gmail.com | github.com/MananAli05 | linkedin.com/in/abdul-manan05 | Rahim Yar Khan, Pakistan

SUMMARY

AI Engineer with experience building AI-powered applications and backend systems, delivering production-ready solutions spanning computer vision, voice AI, LLM integration, and real-time data processing. Skilled in integrating AI/ML models into APIs, developing RESTful services with Django REST Framework and FastAPI, and designing optimized PostgreSQL databases.

TECHNICAL SKILLS

Backend & APIs: FastAPI, Django, Django REST Framework, REST APIs

AI & ML: TensorFlow, Keras, PyTorch, OpenCV, CNNs, YOLO, scikit-learn, NumPy

LLM & Generative AI: LLMs, RAG Pipelines, Embeddings, AI Chatbots, AI Voice Agents

Databases: PostgreSQL, MySQL, Firebase Firestore, Supabase

Frontend: React.js, Tailwind CSS, Streamlit, Flutter

Tools & Platforms: Git, GitHub, Docker, Vercel, Railway, Firebase

EXPERIENCE

Junior AI Engineer — Codagentic

Apr 2026 – Present

Rahim Yar Khan, Pakistan

- Contributed to 2+ AI-powered web applications, delivering backend services and client features using FastAPI and Supabase.
- Built frontend features with React and TypeScript, contributing to full-stack application development.
- Participated in code reviews, debugging, testing, and deployment to ensure production-ready releases.

Python Developer — BuiltinSoft

Jul 2025 – Jan 2026

Rahim Yar Khan, Pakistan

- Developed and maintained RESTful APIs using Django REST Framework, integrating ML models for real-time prediction services.
- Designed and optimized PostgreSQL databases, improving query performance and response time.

PROJECTS

Sage-and-Salt — AI Restaurant Management System | React, Firebase, Node.js, Groq (Whisper + LLaMA), Retell

- Built AI-powered ordering system with voice-call and WhatsApp automation via Retell AI voice agent handling inbound calls in Urdu/English; integrated Twilio SIP trunking.
- Engineered real-time Firebase dashboard for live order tracking with sub-second update latency.

Multilingual AI Healthcare — Bilingual Healthcare Assistant | Flutter, Dart, Firebase, AI, OpenCV

- Developed bilingual (English & Urdu) app with AI symptom checker, lab report analysis, and X-ray disease detection across 5+ disease categories.

LLaMA3 Medical CoT Fine-Tuning | Python, Unsloth, LLaMA 3, LoRA, Weights & Biases

- Fine-tuned LLaMA 3.2B on a medical Chain-of-Thought dataset using LoRA, achieving 10x fewer trainable parameters vs. full fine-tuning.

PlantAnalytica — Computer Vision Plant Disease Detection | Python, TensorFlow, OpenCV, CNN

- Developed CNN-based plant disease detection identifying 10+ classes via transfer learning, achieving 87%+ classification accuracy.

EDUCATION

Bachelor in Data Science — Khwaja Fareed University of Engineering and Information Technology, Rahim Yar Khan

2022 – 2026

CGPA: 3.56/4.0

CERTIFICATIONS

Generative AI (Coursera) • Advanced Python Programming (NAVTTTC Pakistan) • Data Analytics Virtual Internship (Deloitte) • Python (Pearson) • Python Developer Internship (BuiltinSoft)
